Instruction Manual

FCC ID: 2ALCF-XO-9563-1

- 1. Outlet Plug Prongs (Insert into Wall Outlet)
- 2. Smart Outlet
- 3. Power ON/OFF
- 4. Blue LED Indicator (Inside Power Button)

What’s included:

- 1 x Wifi Smart Plug
- 1 x Instruction Manual

Required Software:

Truya Smart App (Google Play, Amazon App Store or iOS App Store)

Connecting WiFi Smart Plug:

A: **Setting Up Your Smart Plug with the Tuya Smart App:**

Download the “Tuya Smart” app from App Store or Google Play or scan the code below to download the app.

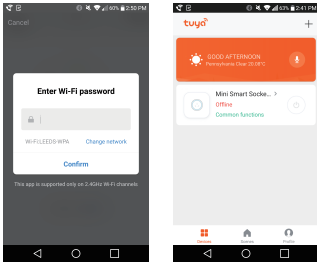

- 2. Open the Tuya Smart app and set up an account unique and personal to you and follow prompts within the app.

- 3. To add a device, select the “+” symbol at the top right of the app home page
- 4. Select “Electrical Outlet” from list of possible devices in the Tuya Smart App menu.
- 5. Press and hold the ON/OFF Power button on the Smart Plug for 5 seconds.

- 6. The Blue LED Indicator light should flash rapidly.
- 7. Enter your home WiFi password (Ensure the network shown below the password field is correct and press “Confirm”).

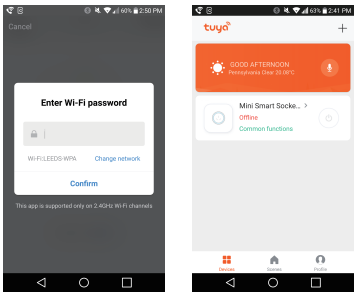

- 8. A window is displayed that states, “This app is supported only on 2.4GHz Wi-Fi channels, please retry.” You may select “Change” to edit the network or “Continue” to proceed (recommended).
- 9. The app will now connect the Mini Smart Socket – ensure your WiFi router, mobile device and Mini Smart Socket are in close range. Operational range is within 10 meters unobstructed.
- (This will take up to 2 minutes).
- 10. Once connected, the name of the device can be edited in the app.
- 11. Device can now be controlled using the Tuya Smart app.

B: **Using in App Mode:**

- 1. Open the Tuya Smart app and set up an account unique and personal to you and follow prompts within the app.
- 2. To add a device, select the “+” symbol at the top right of the app home page.
- 3. Select “Electrical Outlet” from list of possible devices in the Tuya Smart App menu.

- 4. Press and hold the ON/OFF Power button on the Smart Plug for 5 seconds.
- 5. The Blue LED Indicator light should flash slowly.

- 6. Select “Connect now” and when prompted to select a WiFi network, select “SmartLife-XXXX” and press “Confirm”.
- 7. Once configured, Select, “Done”. The app will now connect the Mini Smart Socket.
- (This will take up to 2 minutes).
- 8. Once connected, the name of the device can be edited in the app.
- 9. Device can now be controlled using the Tuya Smart app.

C: **To Use with Smart Home Devices:**

- 1. If you wish to use the WiFi Smart Plug with Amazon Echo, or Google home, follow the instructions within the Tuya APP.
- 2. To access, go to “Profile” and select “Integration”.
- 3. Select your device and follow the instructions for setup.

SAFETY PRECAUTIONS:

- 1. Read all the instructions before using the product.
- 2. Do not use on an aircraft or in a hospital.
- 3. To reduce the risk of injury, close supervision is necessary when the product is used near children.
- 4. Do not expose the device to any moisture.
- 5. Do not use the device in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury.
- 6. Do not use the device if damaged or modified. Damaged or modified smart plug may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
- 7. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
- 8. Do not expose the device to fire or excessive temperature. Exposure to extreme heat may cause explosion.
- 9. Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.

RF Exposure Warning Statements:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The equipment must be installed and used only in fixed/mobile operating conditions.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
